PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building web applications using modern JavaScript technologies. Transitioning from customer-facing and administrative roles where I developed strong problem-solving, process improvement, and project management skills. Primarily working in React, Node.js, and database design with a commitment to writing clean, maintainable code. Seeking a junior developer role to apply technical skills and contribute to collaborative development teams.

PORTFOLIO & PROJECTS

I have completed multiple full stack projects during my AI-powered Full Stack Developer diploma at Mission Ready HQ. Key projects include:

Mission 5 – Trade Me Comparison Table Page Comparison table listing feature built that holds 4 comparison columns. This was built with React, Node.js, Express, and MongoDB. Users can compare items that are pulled from the product listing page. Demonstrates the ability to build complete MERN stack applications with RESTful APIs and database design.

Mission 1 Level 5 - Image Analysis with AI Image recognition application integrating Microsoft Azure's Computer Vision API with a React frontend. Users upload images and receive intelligent analysis. Showcases API integration, async/await patterns, and ability to leverage AI/ML services in applications.

Mission 3 Level 5 - AI Mock Interviewer Backend Full-stack team project where I focused on connecting backend APIs with the frontend interface and AI functionality. Built the integration layer using JavaScript and Node.js to enable seamless communication between the interview question generation, user response handling, and AI feedback systems. Demonstrates strong integration skills, API handling, and ability to work effectively in a collaborative development team.

A portfolio of my projects and code samples is available upon request at **GitHub**:

KEY SKILLS

- JavaScript & React
- Node.js & Express
- Database Design (MySQL, MongoDB)
- HTML & CSS
- TypeScript
- Problem-Solving & Analytical Thinking
- Data Accuracy & Attention to Detail
- Communication & Stakeholder Management
- Time Management & Prioritization

WORK EXPERIENCE

Career Break: July 2021 – January 2022, July 2022 – October 2025: Devoted time to starting and raising a family whilst maintaining professional development. Returned to formal education through Mission Ready HQ's Full Stack Developer program to pursue a career change into software development.

Customer Service Representative / February 2022 – July 2022

Southern Cross Health Insurance Call Centre, Auckland, NZ

- Answered customer queries efficiently via phone calls, email, and online portals
- Assessed eligibility for insurance claims using specific criteria and decision-making skills
- Applied problem-solving techniques to address complex customer concerns

Court Registry Officer / August 2017 – June 2021

Ministry of Justice, Auckland, NZ

- Served as a front-line representative, assisting with collections, family court applications, tenancy tribunal hearings, and criminal court enquiries
- Conducted court proceedings, ensuring smooth court operations and maintained service excellence in high-pressure environments
- Interacted with diverse stakeholders and maintained professionalism while handling complex, sensitive matters
- Processed and actioned up to 30 invoices per day from stakeholders with accuracy and efficiency
- Created detailed reports, coordinated staff members for appropriate tasks, and organized files for stakeholder presentation

Social Work Resource Assistant / January 2013 – January 2016

Oranga Tamariki – National Contact Centre for Child, Youth and Family, Auckland, NZ

- Entered confidential information from paper reports into databases efficiently and accurately
- Ensured data integrity and timely processing to support social workers and other professionals
- Demonstrated meticulous attention to detail with sensitive, confidential information

Waitress & Service Hand / January 2013 – January 2015

Eden Park Catering, Auckland, NZ

- Provided excellent customer service in a fast-paced restaurant and catering environment
- Developed multitasking, quick thinking, and problem-solving skills whilst serving large groups at private events and sports functions

Sales Assistant / January 2011 – January 2012

Rubi Shoes, Auckland, NZ

- Engaged with a variety of customers in a retail environment, providing product knowledge and upselling services
- Resolved customer queries with professionalism and enthusiasm
